ABSTRACT
The editorial team of Acta IMEKO strongly encourages authors to use this LaTeX 2ε template file to produce their manuscript. The abstract should be composed in a way suitable for publication in the abstract section of electronic journals, and should state concisely what it is written in the paper. Important items are the aim of the research, the basic method and the major achievement (also numerically, when applicable). The length should not exceed 200 words.

Section: RESEARCH PAPER

Keywords: Journal; template; IMEKO; LaTeX

Citation: J. Doe, J. Smith, F. Lamonaca, Bare Template for starting writing your own Acta IMEKO paper, Acta IMEKO, vol. 4 (2021) no. 1, pp. 1 – 2, DOI: 10.21014/actaimeko.vXiY.NNNN

Section Editor: Francesco Lamonaca, University of Calabria, Italy

Received: January 1, 2021; **In Final Form:** January 31, 2021; **Published:** March 6, 2021.

Funding: [Optional, if applicable] This work was supported by Measurement Science Consultancy, The Netherlands.

1. INTRODUCTION

The introduction describes the background of the research, a short review of related research published in recent literature, together with the major claims setting the framework of the present publication. References should be related to the present publication, not just a list of papers merrily showing the authors' knowledge of the literature. This relation must be made explicit. The newly presented method is shortly introduced, as an alternative to previously published methods, with mention of the advantages aimed at.

2. FIRST SECTION

First section's text gows here.

3. ABOUT SECTIONS

A further section here.
You can add figures and tables as usual.

3.1. Subsections

If a section is long or deals with different topics, make a subdivision in subsections. Avoid further subdivision of a subsection. When subsections are used, there must be at least two. Use the style named "Level2Title" for the header of a subsection.

3.2. Numbering of subsections

Subsection numbering follows the outline numbering format which is configured in the template. Subsection headings use the Calibri font and are in bold.

ACKNOWLEDGMENT

Here persons or institutes may be acknowledged for their technical, scientific or financial support. List them in this section, and not as a footnote or otherwise.
